C2N AUTOMATIC HOME BACKUP

C2N Automatic Home Backup

Description: The Clickfree C2N is a complete multi-computer Home Backup solution that works with your wireless router. The C2N has all of the functionality of the Clickfree C2 backup drive, and also includes Clickfree's new BackupLink™. BackupLink™ helps customers to backup all of their computers automatically without connecting to each computer. The C2N can backup both Windows and Mac computers at the same time. The setup is Clickfree easy - simply plug it in once to each computer and that computer will be remembered and backup regularly - no network expertise is required. The C2N comes in storage capacities of 250 to 500GB.
